

REMARKS

The Examiner's recognition of Applicants' invention by the allowance of claims 17 and 18 is gratefully acknowledged.

Claim 19 is amended to clarify that the system pressure relief valve engages a biasing member (44 in Fig. 4) disposed between outer surface and the valve seat member of the system pressure relief valve (38).

Claim Rejection under 35 USC § 112

Claims 19-29 were rejected under 35 USC § 112 as indefinite. In response to the rejection, claim 19 is amended to clarify that the claim refers to the system pressure relief valve, as recited in claim 17. No specific grounds were presented for claims 20-29, and it is believed that they were rejected because they depend upon claim 19.

In view of the amendment, it is requested that the rejection be withdrawn.

Conclusion

It is believed that all grounds of rejection of the claims have been addressed and overcome, and that all claims are in condition for allowance. If it would further prosecution of the application, the Examiner is urged to contact the undersigned at the phone number provided.
